

Robin Groves Clinic

May 4 & 5

After many years of trying to arrange—we are delighted to announce that Robin Groves will come down for the weekend and give us lessons. Robin hosts a group, Wheel Runners at GMHA once a month, and travels all over the country giving lessons. Robin is very versatile and do anything we would like, so we are asking—What would you like?

Would you like an individual lesson, or have someone that could share a lesson.

Lessons are available in Harness or Under Saddle—try one each day?

We can always design a standard clinic with 55 minute lessons, but we wanted to know if there are other things we could offer that people might prefer.

Would you like work on cones? We could set up a cones course for some people and do a group.

Interested in hazards? We could have a group do a hazard lesson. Let us know.

First Preference given to those signing up for 2 days.

So give us feedback and we will design the clinic, and let you know the cost and location. It will probably be in East Greenbush or at Akers Acres. We can't do everything, but we can ask if anyone has a preference.

No one is holding you to attending—but let us know what you would like.
